Atlantic City Web Hosting fills a void in the Atlantic City Region

Galloway, NJ—What do you get when you take the latest technology, add the best features, and combine them with the best pricing in the area? A recipe for success seems about right, but when you add that to a 99.9% uptime, 24/7 support and a 30 day money back guarantee you truly get a winning combination, or as we like to call it Atlantic City Web Hosting.

Atlantic City Web Hosting (ACWH)—a professional web hosting service—launched with the assistance of Dynamic Advertising and Design. Created by web designers and developers, ACWH is dedicated to creating an affordable reliable service from simple blogs and group forums to larger business sites.

ACWH offers four web hosting packages. All packages include free setup, no contract, 24/7 support, instant backups, a 30 days money back guarantee, unlimited bandwidth, subdomains and ftp accounts and much more. The most affordable—miniBlogger starts at \$4.75/month and has 100MB of disk space, 100 email accounts, MySQL databases and POP3 accounts. The Business500 plan includes 500MB of disk space, 500 email accounts, MySQL databases and POP3 accounts for only \$7.75/month. Next up is the business1G for \$9.75/month, which offer 1GB of disk space and an unlimited amount of all your needs. And if all of that isn't enough and you want to get real fancy, ACWH offers a CF Programmer1G plan that includes everything you can image and more.

These days, just about anyone can start their own website. So many tools are available that all you need is a little motivation and an internet connection. Websites for personal resumes, blogging, group forums along with every size business are going online every day. Now there's no more excuse. For a limited time, the first 1,000 subscribers can receive a discount on hosting plans. For more information visit www.atlanticcitywebhosting.com
