Dynamic Advertising and Design Announces Office Relocation

Galloway, NJ - After 6 years in their cozy Risley Square office in Galloway, Dynamic Advertising and Design is moving near Historic Smithville NJ in May 2010.

Dynamic Advertising and Design has had a slow and steady growth over the last six years. After the first three years, DAD doubled its space at its first location as more staff joined DAD. With the recent fluctuation in the economy, more office space became available and prices started to level. This in combination with continued growth in business in the last three years, has created a need for more space.

“We had the opportunity to purchase a space that was more suited for our design firm. Now our new space offers separate work and conference areas allowing us to work more personally with our clients without interrupting the work flow of the rest of the staff. Fortunately it appears to be a smooth transition.” Says Tim Downey, CEO and Founder of DAD.

The new office is located at 48 So. New York Rd. Suite A3 Galloway, NJ 08205. All other contact information remains the same.

About Dynamic Advertising and Design:

Dynamic Advertising and Design, is a full service agency specializing in the latest technologies - digital signage, in-house TV networks, e-marketing, website development, voice over work, podcasts and cutting edge creative design. Founded in 2004, the company serves as the primary multimedia provider for several of Atlantic City's Casino properties and other local organizations.
